

VCDM

Short-edge Cash Dispensing Module

Product Introduction

VCDM is the space-optimized cash dispenser, which is suitable for retail safes, TVMs and Kiosks. The cash cassette has security with key mechanism and the unit delivers notes at high speed in spite of short-edge direction. VCDM has its own tray for the delivered notes and the customer does not consider a separate bezel.

Features

- The best space efficiency by short-edge dispensing
- The highest dispensing speed among short-edge dispensers
- Innovative double note detection technology by ultrasonic sensor
- Easy maintenance of open guide structure and ergonomic design

Specification

MODEL			VCDM 100 / 200 / 300 / 400
Type			Short-edge Dispenser
			Spray Type
Spec.	Denomination		1/2/3/4
	Dimension (WxDxH mm)		1 Deno : 169×349×220 / 2 Deno : 169×349×330 3 Deno : 169×349×440 / 4 Deno : 169×349×550
	Access Type		Front Access
	Speed Range		3.2 notes/sec
	Media Size	Height	62~82 mm
		Width	120~165 mm
		Thickness	0.06~0.2 mm
	Double Detect		Ultra Sonic Sensor
	Cassette Capacity		500 notes
	Reject Capacity		About 10~30 notes
	Near End Detection		About 30~50 notes(Optional)
	Pickup/Feeding Type		Friction / Roller to Roller
	Interface		RS232C
	Power		DC 24V +/-10%, 7A
