

Auto Tray - 250

Auto Tray Loader

www.dediprogram.com

Are you still changing the trays by yourself whenever the tray is fully loaded? Auto Tray-250 is an automatic loader specifically for tray input and output. It can accommodate up to 20 to 25 JEDEC standard trays at once and it can perfectly combine with DediProg's automated IC programming systems, DP1000 and DP3000, or other third party automation. Once the tray is filled up with IC, the trays will exchange automatically, and it will only take about 25 seconds!

Integrated with Automated System; Input & Output

Specification

Tray Type	JEDEC tray
Tray Capacity	25 trays
Tray Change Cycle	25 seconds
Operational Interface	LCD and Button
Serial Interface	RS-232
Dimension (W x D x H)	930 x 162 x 1090mm
Weight	40kg
Power Supply	220-240Vac 50/60Hz
Air Pressure	0.5~0.6MPa [5.0~6.0kg/cm ²]; ø6mm Air Pipe
Operating Environment	Temperature: 10~40°C (50~122°F) Humidity: 35~85%
