

A side view of the beam and support assembly. The beam is a long, thin horizontal rectangle. It is supported by three vertical supports. The leftmost support is a small rectangular block. The middle support is a larger rectangular block with a U-shaped cutout on its top surface. The rightmost support is a small rectangular block. A vertical dimension line on the right side of the beam indicates a height of 1 unit from the bottom surface of the beam to the top surface of the middle support.
