

Ferrule

In order to meet the requirements of industrial field assembly, DEGSON introduced a high-quality and cost-effective ferrule solution.

Features

- Single conductor, double conductor type selectable
- The metal part is high-quality copper
- Insulating material PVC or nylon
- Available in German/US/French standard color choices

Product Model

Single Conductor Series

E: PVC insulating
ENY: Nylon insulating

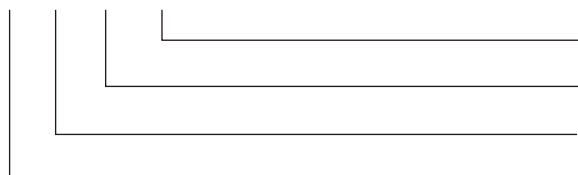

Twin conductor series

TE: PVC insulating
TENY: Nylon insulating

Model Explanation

E 2.5 - 8 - GY

GY: Color, Grey

8: Bare length of metal pipe, 8mm

2.5: wire size, 2.5mm² conductor

E: series, Single conductor PVC insulation sleeve series
