

Fluke TL71 Premium Test Lead Set

Provides comfort grip probes with silicone insulated, right-angle test leads. Heat and cold resistant.

Overview

Test leads are an integral part of the complete measurement system and extend the capabilities of your digital multimeter. The Fluke TL71 Premium Test Lead Set has one pair of red and black comfort grip probes with flexible silicone-insulated, right-angle test leads. With distinctive comfort grip probes, they are heat and cold resistant with safety ratings up to CAT III 1000 V.
