

Tracer A series MPPT solar charge controller

Tracer A series adopts advanced MPPT technology. It can fast and accurately track the maximum power point (MPP) of photovoltaic array in any situation and obtain the maximum solar energy at any time, which remarkably improves energy efficiency. With Modbus communication protocol interface, it is convenient for user to expand applications and meet monitoring requirements in various fields like telecommunication base station, household system, lighting system etc.

FEATURES

- Advanced MPPT technology
- High tracking efficiency no less than 99.5%
- Peak conversion efficiency of 98%
- Ultra-fast tracking speed
- Accurately recognizing and tracking MPP of multiple wave crest
- Automatic PV power limit function
- Multi-function LCD displays system information intuitively
- User programmable for battery types, load control etc.
- 3-Stage charge with PWM output
- Common positive grounding design
- RS485 port with industrial standard MODBUS open architecture
- Fully programmable function via remote meter, PC software and Mobile APP

TECHNICAL SPECIFICATIONS

Model	Tracer1210A	Tracer2210A	Tracer3210A	Tracer4210A
Nominal system voltage	12/24V auto work			
Rated charge current	10A	20A	30A	40A
Rated discharge current	10A	20A	30A	40A
Max. PV open circuit voltage	100V at minimum operating environment temperature, 92V at 25°C environment temperature			
MPP voltage range	(V _{bat} +2V)~72V			
Max. PV input power	12V 130W 24V 260W	12V 260W 24V 520W	12V 390W 24V 780W	12V 520W 24V 1040W
Equalize charging voltage	Sealed: 14.6V, Flooded: 14.8V			
Boost charging voltage	Gel: 14.2V, Sealed: 14.4V, Flooded: 14.6V			
Float charging voltage	13.8V			
Low voltage reconnect voltage	12.6V			
Low voltage disconnect voltage	11.1V			
Self-consumption	≤20mA(12V), ≤16mA(24V)			
Temp. compensation	-3mV/°C/2V			
Communication	RS485(RJ45 interface)			
Grounding	Common positive			
Dimension	172x139x44mm	220x154x52mm	228x164x55mm	252x180x63mm
Net weight	0.6kg	1.1kg	1.2kg	1.9kg
Enclosure	IP30			
Working environment temperature	-25°C ~ +45°C			
Humidity range	≤95% (N.C.)			

※ Technical data for 12V system at 25°C, twice in 24V system.

※ Programmable voltage value by PC, MT50 and APP.

Tracer BN series MPPT solar charge controller

Tracer-BN Series is a flagship member among all tracer MPPT controllers. We design with very long lifespan industrial materials and die-cast aluminum housing cooling system, to improve the controller's performance and life. To meet different projects and applications, we built-in RS485 bus interface, with Modbus communication protocol, easy for communication extension with other devices. The optional programmable ability make the controllers work with different batteries, control your DC load remotely on/off by manual, timer, light and etc. Especially, the current limiting function gives you more flexibility for solar PV array.

FEATURES

- Advanced Maximum Power Point Tracking (MPPT) technology
- High tracking efficiency ≥ 99.5%
- Peak conversion efficiency of 98%
- Ultra-fast tracking speed
- Accurately tracking and recognizing MPP among multiple wave crest
- Reliable automatic PV current limiting function
- Wide MPP operating voltage range
- Die-cast aluminum design, ensuring excellent heat dissipation
- Multiple load working modes: Manual Control, Light ON/OFF, Light On+Timer and Time Control
- Battery type selection: Sealed, Gel, Flooded and User(programmable)
- Battery temperature compensation
- Real-time energy statistics
- RS485 port with industrial standard MODBUS open architecture
- Real-time data monitoring and parameters setting with MT50, APP or PC software
- Support firmware upgrade

ViewStar A series PWM solar charge controller

Viewstar A series is common positive controller with LCD display, adopting the most advanced digital technique, high cost performance. The multiple load control modes enable it can be widely used in solar home system, traffic signal, solar street light, solar garden lamp, etc.

FEATURES

- PWM charging
- Battery type selection: Sealed, Gel, Flooded
- Multi-function LCD displays system information intuitively
- Multiple load control modes
- Energy statistics function
- Optional RTS for accurate temperature compensation
- Extensive electronic protection

ELECTRONIC PROTECTIONS

- PV short circuit protection
- PV reverse polarity protection
- Battery over voltage protection
- Battery over discharge protection
- Battery reverse polarity protection
- Battery overheating protection
- Load overload protection
- Load short circuit protection
- Controller overheating protection

ViewStar BN series

PWM solar charge controller

This Viewstar BN series is common negative controller, with LCD display, working data programmable, It has communication function via RS485 port to PC monitoring software, realizing real-time monitoring and battery management parameter setting.

FEATURES

- PWM charging
- 32 bit MCU with high speed
- Battery type selection: Sealed, Gel, Flooded, and User(programmable)
- Intelligent lighting and timer control for solar lighting system
- 12 bit A/D high-precision sampling to ensure accuracy
- Full control parameters setting and modification, diversified load control mode
- Humanized design of browser interface
- Battery temperature compensation
- Adopt graphics dot-matrix LCD screen and 4 buttons for integrated menu displaying and operation
- Real-time energy statistics
- RS485 port with industrial standard MODBUS open architecture
- Real-time data monitoring and parameters setting with MT50, APP or PC software
- Support firmware upgrade

LandStar B series PWM solar charge controller

Landstar B series controller with high reliability, accuracy of sampling and full electronic protection. Programmable via remote meter MT50 ,PC software and APP.

FEATURES

- PWM charging
- Three LEDs shows PV charging, battery and load status
- Optional RTS for accurate temperature compensation
- RS485 port with industrial standard MODBUS open architecture
- Multiple load working modes: Manual Control, Light ON/OFF, Light On+Timer and Time Control
- Battery type selection: Sealed, Gel, Flooded and User (programmable)
- Battery temperature compensation
- Real-time energy statistics
- RS485 port with industrial standard MODBUS open architecture
- Real-time data monitoring and parameters setting with MT50, APP or PC software
- Support firmware upgrade

ELECTRONIC PROTECTIONS

- PV short circuit protection
- PV reverse polarity protection
- Battery over voltage protection
- Battery over discharge protection
- Battery reverse polarity protection
- Load short circuit protection
- Load overload protection
- Overheating protection
